

Program Changes and Corrections

Additional Exhibitors:

Dodge Learning Resources
Foster Johnson
Imagine Learning
Magma Math
Zorbow: A Galactic Adventure

Program Corrections:

- Session 36 will be presented by Robert Gerver of *North Shores High School, NY*.
- Session 55 should be titled: Grand Central Station to Station-Based Teaching (*Grades K-5*)

New sessions:

- (replacing Session 73 Thursday at 2:30 in Gas 1)
Session 194: How to Build an Effective Project-Based Math Program (Gr K-12)
John Riley, Riley Math Education
This workshop will cover a continual improvement process to growing and improving your math program. The workshop will review the effective mathematics teaching practices, Boaler's seven positive norms, *Building Thinking Classrooms*, and how to choose effective activities.
- (replacing Session 147 Friday at 11:00 in Krannert 2)
Session 195: Whiteboard Presentations (Grades 6-12)
John Riley, Riley Math Education
This presentation will center on how to use white boards to run activities in a math classroom and will also review important frameworks in math education.

Time / location changes:

- Session 101: Refocus Student Engagement to Increase Student Success has moved from *Thursday 3:45* to *Thursday 1:15-2:15PM* in *Wildlife Ecology 4*.

Cancelled sessions:

- Session 66: Creating a Digital Breakout Task using Microsoft OneNote
